ENGINEERING CHALLENGE PREVIEW: ABOVE & BEYOND

Our Engineering Challenge asks students to explore and apply engineering skills and tools to design and build solutions to specific applications.

////////////////////

Dive right into the middle of the action! With this season's Engineering Challenge, you'll tell a story that starts with an in medias res scene. Make sure to include something important that expands, extends, or goes above and beyond. Defy gravity as you load up your structure with weights placed as far away from the base as possible. We can't wait to see how you'll go above and beyond!

- Test how much weight a team-created structure can hold by placing weights onto the Structure as far from the center as possible.
- Create and present a story in which something important expands, extends, or goes above and beyond.
- Begin the Presentation with an in medias res scene.
- Include an expansion effect.
- Create and present two Team Choice Elements that show off the team's interests, skills, areas of strength, and talents.
