

Win It Big / Middle Level

Renaissance

(148-34296) Germantown / Well, technically..., Germantown

Recipient: Entire team

For: Innovation and creativity for their game show podiums

Text: The team showcased wonderful creativity and innovation in their game show podiums. Instead of your standard wooden frame, this team chose to repurpose walkers, to create their contestant podiums. The team combined custom fabric covers with stenciled names that lit-up with each buzz-in. Appraisers were wowed by the unique slide-switches that were used to light up each name. This team really nailed the feel of a gameshow.
